Pan Orient Energy Corp.
Notes to Consolidated Financial Statements (Unaudited)

1) DESCRIPTION OF BUSINESS

Pan Orient Energy Corp. ("Pan Orient" or the "Company"), is an oil and natural gas company based in Calgary, Alberta, which holds properties onshore Thailand and Indonesia as well as interests in subsidiaries with properties in Northern Alberta. The Company pursues other oil and natural gas exploration acreage in Asia.

2) SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

The unaudited interim consolidated financial statements of Pan Orient have been prepared by management in accordance with Canadian generally accepted accounting principles. The interim financial statements have been prepared following the same accounting policies and methods of computation as the audited financial statements of the Company for the year ended December 31, 2009, except as noted below. The disclosures provided below are incremental to those included with the annual consolidated financial statements. Certain information and disclosures normally required in the notes to the annual financial statements have been condensed or omitted and therefore these interim financial statements and notes thereto should be read in conjunction with the audited financial statements for the year ended December 31, 2009. Unless otherwise indicated, all financial amounts are reported in thousands of Canadian dollars.

3) CHANGES IN ACCOUNTING POLICIES

On January 1, 2010, Pan Orient adopted the following Canadian Institute of Chartered Accountants ("CICA") Handbook sections:

"Business Combinations", Section 1582, which replaces the previous business combinations standard. The standard requires assets and liabilities acquired in a business combination, contingent consideration and certain acquired contingencies to be measured at their fair values as of the date of acquisition. In addition, acquisition related and restructuring costs are to be recognized separately from the business combination and included in the statement of earnings. The adoption of this standard will impact the accounting treatment of future business combinations entered into after January 1, 2010.

"Consolidated Financial Statements", Section 1601, which, together with Section 1602 below, replace the former consolidated financial statements standard. Section 1601 establishes the requirements for the preparation of consolidated financial statements. The adoption of this standard had no material impact on Pan Orient's consolidated financial statements.

"Non-controlling Interests", Section 1602, establishes accounting and reporting standards for the non-controlling (minority) interest in a subsidiary as well as the accounting for (i) a parent's loss of control (deconsolidation) of a subsidiary and (ii) changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation. Section 1602 clarifies that a non-controlling interest in a subsidiary is an ownership interest in a consolidated entity that should be reported as equity in the consolidated financial statements. This Section also changes the way the consolidated statements of income (loss) and comprehensive income (loss) are presented by requiring consolidated net income (loss) and comprehensive income (loss) to be reported at amounts that include the amounts attributable to both the parent and the non-controlling interest. Section 1602 required retrospective adoption of the presentation and disclosure requirements for non-controlling interests. All other requirements of Section 1602 have been applied prospectively.

The above CICA Handbook sections are converged with International Financial Reporting Standards ("IFRS"). Pan Orient will be required to report its results in accordance with IFRS beginning January 1, 2011.

Office equipment	1,754	(1,005)	749
	220,272	(40,434)	179,838

General and administrative and stock-based compensation costs totaling \$1.2 million (2009 - \$1.0 million) and \$2.5 million (2009 - \$1.8 million) that were directly related to exploration and development activities have been capitalized for the three and six months ended June 30, 2010, respectively.

Costs associated with unproven properties of \$29.0 million (2009 - \$24.5 million) with respect to the Thai full cost pool have been excluded from the depletion calculation. The capitalized costs associated with Canada and Indonesia are not subject to depletion as production has not commenced.

Recoverability of the Canadian and Indonesian capitalized costs is dependent on successfully completing development of the properties. With respect to the Canadian properties, recoverability is also dependent on determining the technical feasibility of the project. Capitalized costs incurred to date do not necessarily represent present or future values.

In 2010 costs of \$531,000 (2009 - \$36,000) were expensed and included in foreign new venture expenditures as a result of unsuccessful bids for production sharing contracts in Indonesia. The costs expensed in 2009 related to an unsuccessful bid for various oil and gas concessions in India.

5) ASSET RETIREMENT OBLIGATIONS

(\$000s)	Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009

Asset retirement obligations, end of period	3,485	2,839	3,485	2,839

Total undiscounted cash flows, escalated at 2.0%, required to settle the Company's asset retirement obligations are estimated to be \$10.3 million (2009 - \$9.1 million). Estimated costs incurred in 2010 have been discounted at Pan Orient's credit-adjusted, risk-free interest rate of 8% (2009 and prior - 10%).

On April 16, 2010 Pan Orient granted options to purchase 2,411,500 common shares under Pan Orient's stock option plan, of which 2,275,000 were granted to directors and officers. Each option has an exercise price of \$7.15 (being the April 15, 2010 closing price of the shares on the TSX Venture Exchange); vest as to 1/3 on the grant date and 1/3 on each of the first and second anniversaries of the grant date and expire on April 16, 2014.

The original grant of options to officers and directors of Pan Orient on April 17, 2005 had an expiry date of April 17, 2010. A total of 1,634,000 common shares have been issued in 2010 pursuant to the exercise by officers and directors of this original grant of options.

c) Stock-based Compensation

A Black-Scholes option pricing model is used to estimate the fair value of options on the date of the grant and revalue stock options granted to consultants on a quarterly basis. The fair value of the stock based compensation is amortized over the vesting period of the options, generally being two to three years.

Pan Orient Energy Corp.
Notes to Consolidated Financial Statements (Unaudited)

Weighted average assumptions and resultant fair values for stock options granted or revalued during the three and six months ended June 30, 2010 and 2009, were as follows:

d) Andora Energy Corporation

i) Issued and Outstanding Class A Common Shares

As at June 30, 2010 Andora had 57.3 million (December 31, 2009 – 57.6 million) common shares issued and outstanding of which Pan Orient held 53.4% (December 31, 2009 – 53.2%).

During 2010 Andora settled a \$0.6 million account receivable related to a lawsuit from a previous business acquisition that was outstanding at December 31, 2009. In lieu of a cash settlement, 0.4 million shares of Andora that were held in escrow were released to Andora and cancelled which increased Pan Orient's interest from 53.2% to 53.5%. An additional 0.1 million shares were issued in May 2010 which decreased Pan Orient's interest from 53.5% to 53.4%.

In accordance with the new accounting policy on non-controlling interests (note 3), increases or decreases in a parent's ownership interest while retaining control is a capital transaction. The transactions resulted in a decrease in non-controlling interest of \$0.4 million and a decrease in contributed surplus of \$0.2 million.

ii) Options to Purchase Common Shares of Andora

	Number of options	Weighted average exercise price (\$)

Weighted average diluted	49,192,691	46,014,564	48,487,402	45,792,697

Options to purchase 2,986,500 common shares for the three and six months ended June 30, 2010 (June 30, 2009 – 875,000) were not included in the computation of weighted average diluted common shares because they were anti-dilutive.

7) FOREIGN EXCHANGE

The Company's reporting currency is the Canadian dollar and its functional currencies are the Canadian dollar, the Thai baht and the US dollar. Each reporting period, the changes in the values of the baht and U.S. dollar relative to the Company's reporting currency must be recognized.

The Company's treasury function has been established with the goal of minimizing foreign currency exchange fluctuations to the extent possible. In addition to expatriating surplus funds from Thailand to Canada to hold in Canadian dollars, an integral part of this process is maintaining an appropriate cushion of baht in Thailand to satisfy payments in that currency as they come due, the most significant of which are the Company's SRB and taxes.

Pan Orient Energy Corp.
Notes to Consolidated Financial Statements (Unaudited)

Accumulated Other Comprehensive Income (“AOCI”)

Activity related to the AOCI balance for the three and six months ended June 30, 2010 and 2009 was as follows:

(\$000s)	Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009
Balance at beginning of period	(5,262)	4,933	(4,149)	4,037
Unrealized foreign currency translation gain	6,070	581	4,957	1,257
Foreign exchange loss realized	-	(969)	-	(749)
Balance at end of period	808	4,545	808	4,545

Accumulated other comprehensive income at the following balance sheet dates was comprised of the following:

(\$000s)	As at	
	June 30, 2010	June 30, 2009
Foreign exchange gain related to Thailand	2,036	4,818
Foreign exchange loss related to Indonesia	(1,228)	(273)
Total Accumulated Other Comprehensive Income	808	4,545

The amount included in AOCI for Thailand relates to translation gains and losses on the non-temporary portion of the investment and will continue to fluctuate based on the exchange rates between the Thai baht and Canadian dollar. The balance of the Indonesia AOCI will continue to fluctuate in future periods depending on the amount of capital invested in Indonesia and the exchange rates between the Canadian and U.S. dollar.

8) THAILAND SPECIAL REMUNERATORY BENEFIT TAX AND INCOME TAXES

The Company is required to pay both Special Remuneratory Benefit (SRB) and income tax in Thailand. Thai income tax is calculated at 50% of taxable income which is basically comprised of cash flow from operations before changes in working capital less capital expenditures and other permitted deductions.

SRB is calculated separately for each of the Company's four concessions and is not charged until all capital has been recovered. The sliding scale SRB rate ranges from 0 - 75% and is principally driven by production and pricing but is also subject to other adjustments such as changes in Thailand's consumer price index, wholesale price index and cumulative meters drilled on the concession. The calculated SRB tax rate is applied to petroleum profits as defined in Thai tax legislation which includes a deduction for capital spent.

A summary of tax payable for the three and six months ended June 30, 2010 and 2009 are as follows:

(\$000s)	Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009

9) FINANCIAL INSTRUMENTS

Credit Risk

The most significant exposure to this risk is relative to the sale of oil production; all of the Company's production is sold to a refinery owned by the Thai National Oil Company. Pan Orient is paid for its production on a monthly basis, typically within a week of the end of the month. The Company has assessed the risk of non-collection from the Thai government as minimal.

Foreign Currency Exchange Rate Risk

The Company's reporting currency is the Canadian dollar and its functional currencies are the Canadian dollar, the Thai baht and the U.S. dollar (USD). Changes in foreign exchange rates between the Canadian dollar and the U.S. dollar and Thai baht can affect net income (loss) and other comprehensive income (loss).

As at June 30 the following financial instruments were denominated in currencies other than the Canadian dollar:

(\$000s)	As at June 30, 2010		As at June 30, 2009	
	Thai baht (000s of Thai baht)	USD (\$000s)	Thai baht (000s of Thai baht)	USD (\$000s)

(1) Translated at June 30, 2010 and 2009 exchange rates.

Based on financial instruments held at June 30, 2010 and 2009, fluctuations in the exchange rates as indicated below would have the following estimated effect on net income and other comprehensive income:

(\$000s)	As at June 30	
	2010	2009
Effect of 1% change in CAD\$ to USD exchange rate:		
Pre-tax net income	93	5
Other comprehensive income	9	114
Effect of 1% change in CAD\$ to baht exchange rate:		
Pre-tax net income	-	273
Other comprehensive income	47	-

The Company did not have any forward exchange contracts in place as at or during the three or six months ended June 30, 2010 or 2009.

(2) The Company owns a 90% working interest in the Batu Gajah production sharing contract (PSC), a 69% operated working interest in the Citarum PSC, and a 90% operated working interest in the South CPP PSC. Amounts recorded in the financial statements and work commitments related to these PSCs include amounts paid by Pan Orient on behalf of a partner's carried interest (10% for Batu Gajah, 11% for Citarum and 10% for South CPP).

(3) "Work Program Commitment" is primarily based on the PSC contracts but also includes certain revisions with respect to work required and timing of completion negotiated with and approved by the Government of Indonesia.

Indonesia financial commitments as provided above represent the current exploration phase that the Company is conducting. If Pan Orient exercises its options to continue beyond the obligation periods noted, additional commitments will be determined on a year-by-year basis through submission of a work program and approval from the Government of Indonesia (GOI). The actual commitments are the work programs themselves as specified in the PSC agreement.

The obligation period shown for Citarum and Batu Gajah differs from the PSC agreement as commitments from previous years have been deferred and rolled forward. Every year the Company submits a work program for each PSC to the GOI and along with it, a request to roll forward any incomplete commitments from the previous year. Although this request is a departure from the original contract, it is considered standard practice in Indonesia. The above obligation periods for Citarum and Batu Gajah are consistent with this practice. In the past, such applications on behalf of Pan Orient have been approved by the GOI and management has no reason to believe that future requests will not be granted approval however there is no guarantee. Upon default of a commitment related to any of the first three years of a PSC the operator is required to relinquish 15% of the original PSC area, the actual acreage at the discretion of the operator. To date, Pan Orient has complied with all relinquishments as required. Depending on the stage of the PSC, failure to fulfill the required commitments may also result in penalty payment equal to the unspent commitments and/or forfeiture of the PSC.

The expenditures as provided in the table above represent the Company's estimated costs in completing the work program requirements. Actual expenditures required to carry out these commitments may be significantly different than the estimates.

The Company intends to fund commitments through existing cash surplus and expected cash flows from Thailand operations.
