1) CORPORATE INFORMATION

Pan Orient Energy Corp. (the "Company") is an Alberta, Canada corporation with shares listed on the TSX Venture Exchange (TSX-V). The records office and principal address is located at 1505, 505 . 3rd Street S.W., Calgary, Alberta, T2P 3E6.

The Company is an oil and natural gas company which holds properties onshore Thailand and Indonesia as well as an interest in Andora Energy Corporation (Andora) which holds properties in Northern Alberta. The Company is continually pursuing other oil and natural gas exploration opportunities in Asia.

On February 2, 2015 the Company completed the sale of a 49.99% equity interest in Pan Orient Energy (Siam) Ltd. The transaction has resulted in Pan Orient Energy (Siam) Ltd. changing from a wholly owned subsidiary of Pan Orient to a jointly controlled investment effective February 2, 2015 (see note 3).

2) BASIS OF PRESENTATION

Statement of Compliance

The interim condensed consolidated financial statements for the Company as at March 31, 2016 and for the three months ended March 31, 2016 and 2015 should be read in conjunction with the audited consolidated financial statements as at and for the year ended December 31, 2015. The following disclosures are incremental to those included with the annual consolidated financial statements. Certain disclosures that are normally required in the notes to the annual consolidated financial statements have been condensed or omitted. The interim condensed consolidated financial statements are prepared using the same accounting policies and methods of computation as disclosed in the annual consolidated financial statements.

The interim condensed consolidated financial statements are stated in Canadian dollars and have been prepared in accordance with the International Accounting Standards 34, *Interim Financial Reporting*.

The interim condensed consolidated financial statements were approved by the Company's Board of Directors on May 17, 2016.

5) EXPLORATION AND EVALUATION

A reconciliation of the carrying amount of exploration and evaluation (E&E) assets as at March 31, 2016 is set out below.

(\$000s)	Indonesia	Canada	Total
At December 31, 2015	109,165	81,157	190,322
Additions	555	1,071	1,626
Changes in decommissioning provision	-	45	45
Dispositions	-	(105)	(105)
Foreign currency translation	(6,949)	-	(6,949)
At March 31, 2016	102,771	82,168	184,939

General and administrative costs totaling \$0.6 million (March 31, 2015 - \$0.4 million) and stock-based compensation totaling nil (March 31, 2015 - \$8 thousand) that were directly related to exploration and evaluation activities have been capitalized as exploration and evaluation assets.

As at March 31, 2016 Andora's Sawn Lake steam assisted gravity drainage (SAGD) demonstration project has not yet proven that it is commercially viable and all related costs and revenues are being capitalized as E&E assets until commercial viability is achieved. Commercial viability is determined based on several factors including the assignment of proven and probable reserves. Upon being determined commercially viable the related E&E assets will be tested for impairment and reclassified to property, plant and equipment where they will be depleted.

Recoverability of the capitalized costs is dependent on successfully completing development of the properties. With respect to the Canadian properties, recoverability is also dependent on determining the technical feasibility of the project. Capitalized costs incurred to date do not necessarily represent present or future values.

6) DECOMMISSIONING PROVISION

(\$000s)	Indonesia	Canada	Total
Decommissioning provision, beginning of period	42	1,293	1,335
Revisions to obligations	-	45	45
Accretion	-	5	5
Foreign currency translation	(2)	-	(2)
Decommissioning provision, end of period	40	1,343	1,383

The decommissioning provision is based on the Company's net ownership of wells and facilities in Indonesia and Canada, management's estimates of costs to abandon and reclaim those wells and facilities and the potential future timing of the costs to be incurred. Total undiscounted cash flows, escalated at 2.0% for inflation, required to settle the Company's decommissioning provision are estimated to be \$2.0 million (March 31, 2015 - \$1.9 million). Payments to settle the provision will be made over the operating lives of the underlying assets and are estimated to be incurred between 2016 and 2050. Estimated costs have been discounted at the risk-free interest rate in the jurisdiction in which the expenditure is expected to be incurred which averaged at 2% at March 31, 2016 (March 31, 2015 - 2%).

(1) Translated at March 31, 2016 exchange rates from the source currency in which commitments were denominated in.

(2) The original nine year exploration period for Concession L53 expired in January 2016. The Government of Thailand has approved a 215.87 square kilometer "reserved area" with the payment of an annual surface reservation fee of \$0.4 million for up to five years. The surface reservation fee is reimbursable through work program expenditures.

(3) Indonesia financial commitments as provided above represent the required initial 3-year firm exploration work program required under the PSC. The extension of these initial 3-year firm exploration work program commitments have been successfully negotiated in the past with the Government of Indonesia ("GOI"). The deadlines for commitments and potential extension of the total exploration period with potential additional commitments is determined on a year-by-year basis as part of an annual submission of a work program which is approved by the GOI. Although extension of the deadline for completion of the 3-year firm exploration work program is a departure from the original contract, it is considered standard practice in Indonesia. In the past, such applications on behalf of Pan Orient have been approved by the GOI and management has no reason to believe that future requests will not be granted approval; however, there is no guarantee. Upon default of a commitment related to any of the first three years of a PSC, the operator is required to relinquish 15% of the original PSC area (the actual acreage relinquished is at the discretion of the operator). Depending on the stage of the PSC, failure to fulfill the required firm commitments may also result in penalty payment equal to the unfulfilled commitments and/or forfeiture of the PSC.

(4) On June 1, 2015, the Company completed the farm-out of a 51% participating interest and operatorship of the East Jabung PSC. Under the terms and conditions of the farm-out agreement, the farminee has a firm commitment to fund the first USD \$10.0 million towards the first exploration well and a contingent commitment to fund the first USD \$5.0 million towards an appraisal well, if justified. The commitment provided above represents the Company's 49% interest in the second exploration well commitment as stated in the PSC and its share of the outstanding geological studies.

Management's estimate of the minimum amount to fulfill the commitments in Indonesia is based either on the amount stated in the PSC agreement, or the work program budget approved by the GOI if the work program activity has commenced.

Actual expenditures required to carry out these commitments may be significantly different from the estimates. The Company intends to fund commitments through its Company's existing cash balance.

11) CONTINGENCIES

- (a) The Company has significant international operations and subsidiaries incorporated outside of Canada. The international operations and earnings of the Company and its affiliates have been, and may in the future be, affected from time to time in varying degree by political developments and laws and regulations, such as forced divestiture of assets; restrictions on production, imports and exports; price controls; tax increases and retroactive tax claims; expropriation of property; cancellation of contract rights and environmental regulations. Both the likelihood of such occurrences and their overall effect upon the Company can vary greatly from country to country and are not predictable.
- (b) The Tax Directorate General of Indonesia assessed several oil and gas companies operating in Indonesia for 2012, 2013 and 2014 Land and Building Tax using a new framework, especially for the calculation of surface Land and Building Tax on offshore acreage, which is being challenged by the impacted oil and gas companies in Indonesia. Pan Orient was issued a Tax Assessment and Notification for the East Jabung PSC for 78,705 million Indonesian rupiah or \$7.8 million when translated at the March 31, 2016 exchange rate. The potential accrued penalty for the unpaid tax to the end of the period was an additional \$2.8 million. Of the total amount for the assessed Land and Building Tax and penalty of \$10.5 million, \$9.8 million is associated with the 2013 assessment on the Company's offshore acreage which the Company applied to voluntarily relinquish in the fourth quarter of 2013 and finalized in 2014.

Pan Orient lodged an Objection with the Indonesian Tax Office in September 2013 in respect of the 2012 and 2013 Land and Building Tax and in August 2014 in respect of the 2014 Land and Building Tax for the East Jabung PSC. On September 25, 2014 the Indonesia Tax Office rejected the Company's Objection in respect of 2012 and 2013 and on 31 December 2014 the Tax Office rejected the Company's Objection in respect of 2014. Likewise, the Tax Office also rejected the objections of the other oil and gas companies for the years 2012, 2013 and 2014 on this issue. In the fourth quarter of 2014 the Company filed an appeal in respect of the 2012 and 2013 assessments to the Tax Office's Objection with the Indonesian Tax Court and, as required by Indonesian law to file an appeal with the Indonesian Tax Court, paid a refundable deposit of \$3.9 million, which is equal to 50% of the tax being disputed. In the first quarter of 2015 the Company filed an appeal in respect of the 2014 assessment to the Tax Office's Objection with the Indonesian Tax Court and, as required by Indonesian law to file an appeal with the Indonesian Tax Court, paid a refundable deposit of \$86 thousand, which is equal to 50% of the tax being disputed. Management believes that the Company has a strong technical position against the taxes assessed and has not recorded any provision in the consolidated financial statements. In the event the Company loses the appeal, it has the option to further appeal to a higher court level which may take three years to deliver a verdict. Regardless of the Company's decision to appeal to a higher court, in the event that it loses at the Tax Court stage it will be required to pay the total taxes less the already paid 50% deposit. The Company would also be required to pay a penalty up to a maximum of \$2.8 million should it lose the appeal. If the Company then succeeds in its appeal to a higher court it will be entitled to a refund of all taxes and penalties paid after the Tax Court decision.

In the second quarter of 2015 Pan Orient completed the transfer of a 51% interest and operatorship of the East Jabung PSC. The Company is responsible for the contingency of the Land and Building Tax obligation of the East Jabung PSC as discussed in this note to the financial statements.
